Time to think of sailing!!! The weather is getting better by the day.

I am now in charge of the Dighny racks, wet slips, and beach storage. I need your help in letting me know what your needs are so that when a rack or a beach area is assigned to you it is what you can really use.

Storage is not for free and is not first come first serve. You need to be assigned. There will be no exceptions.

Once you have paid, and I know some of you already have I then will assign you a number or a beach space.

You can fill out the flyer that is in the Mainsheet and forward it with your payment. Or better yet email me the information, then I will then get back to you.

Thanks for all your help and making this an easy assignment.
